Your Tractor Sunscreen Kit:

Kit includes:

- Sunscreen
- 4 Shock cords with Hooks

Sunscreen

Shock cords

- ❶ If not already installed, install shock cords through grommets of screen and tie them in a knot. Adjust knot by re-tying if necessary to adjust the tightness of the shock cords.
- ❷ For tall narrow Roll Bars (ROPS) install length wise for wide Roll Bars (ROPS) install width wise
- ❸ Locate four places to attach the straps by wrapping them around structure and then clipping the hook onto the shock cord or clip the hook onto the structure itself.

Shock cord installed in eyelet

Shock Cords installed in eyelet and then around narrow ROPS and clipped back onto Shock Cord

Shock Cords installed in eyelet and then around wide ROPS and clipped back onto the Shock Cord
